Dear Jim:

On behalf of the Supreme Court of Pennsylvania, it has been my pleasure to work with you and Gary Long on the complex electrical upgrade project in the City-County Building. Considering the age/historical landmark issues and the difficult accessibility from the basement/sub-basement to the Eighth Floor of the City-County Building, the Court was not certain that an electrical contractor could perform the required work. Ferry Electric Company was the only electrical contractor willing to provide a proposal.

As the project supervisor, I was impressed with your ability to discuss the scope of work in terms that a lay person could understand. You responded in a practical and 'relaxing' manner that encouraged the project to flow. You assigned the perfect electrician for the project, Gary Long, who loves older buildings and their inherent challenges. Gary worked independently with extreme precision and outstanding attention to detail. Your combined work ethics allowed me to have every confidence that the project was going to be successful and completed on time. You were always accessible, fair, and very accommodating; i.e., negotiating the revised scope of work, determining the best way to budget the project, agreeing to the terms of the contract, assigning the best crew, and working very well with me, the City of Pittsburgh, Allegheny County, and the court's contracted professional engineer.

Thank you for an outstanding job. I would heartily recommend Ferry Electric Company to any prospective client.

Sincerely,
